Summary

My name is Omar and I am a passionate developer who loves to learn new things and grow from my mistakes. I graduated from Dar El-Oloum Cairo University with a degree in a different field, but I discovered my passion for web development and taught myself the skills I needed. I am a fast and smart learner who can deliver quality work on time and with organization. I prefer to work in a low pressure environment with a creative and productive team.

Technical Skills

General Concepts:
Problem Solving, OOP, Design Patterns, SOLID principles, MVC.

Technologies:
HTML, CSS, Bootstrap, SASS, JavaScript, jQuery, JSON, Ajax, PHP, SQL, Laravel, APIs.

Other:
Git, GitHub, Microsoft Office, Linux.

Experience

Back End Developer
Seena-Pay. Full-time
Nasr City, Cairo, Egypt April 2024 – Present

- Developing backend features using Laravel
- Creating reports and managing data for better insights
- Building and maintaining APIs for smooth data exchange
- Integrating payment systems to ensure secure transactions
- Working closely with the team to improve performance and code quality

Laravel, PHP, API Development, MySQL, Ajax, JSON

Freelancer Back End Developer
Upwork. Full-time
Cairo, Egypt Sep 2022– Present

Education

- License in: Arabic and Islamic Studies - 2018 - 2022
- Faculty of Dar El-Uloom | Cairo University

Projects

Back-End Projects:

Real Time API Website (Laravel, APIs, WebSocket, Redis, MySQL)
- Built a Laravel API with real-time updates via WebSockets and Redis caching.
- Secured user authentication and role-based access with Laravel Sanctum.
- Developed task CRUD operations and asynchronous processing with Laravel queues.
- Ensured clean, maintainable code following Laravel best practices.
